

## *Syracuse University* **Electrical Engineering and Computer Science**

The Department of Electrical Engineering and Computer Science (EECS) at Syracuse University invites applications for a part-time faculty to teach the three-credit course, CIS 500 (Design and Implementation of Database Management Systems) for the Spring 2010 semester. This course is an online course, however, there will be one in-class meeting per week.

The duties associated with this teaching assignment include:

- Developing and/or updating a class syllabus;
- Preparation of lectures, projects and other student assignments;
- Maintaining regularly scheduled office hours;
- Presenting instruction based on the competencies and performance levels of the course;
- Meeting all designated class periods;
- Submitting completed final grades according to the University regulations;
- Grading student assignments and exams in a timely manner;
- Providing departmentally sanctioned forms for completed student evaluations;
- Building a positive rapport with students and other faculty.

A doctorate in computer engineering or computer science is required at the time of employment.

**STARTING DATE:** January 18, 2010.

**APPLICATION DEADLINE:** Applications will be accepted until the position is filled.

**APPLICATIONS:** For application information please see the following web site: <http://www.sujobopps.com> (Job #025621).

***Syracuse University is an Affirmative Action/Equal Opportunity Employer. Qualified applicants from those groups that are traditionally underrepresented in faculties are particularly urged to apply.***
